Staying in touch with your family and friends is convenient and easy when using your microTALK® radio. Some of the many uses you will discover include: communicating with others while hiking, biking, and working; keeping track of family and friends at a crowded public event; checking with travel companions in another car; talking with neighbors; arranging meeting spots with others while shopping at the mall.

Secure your microTALK® radio while on the go.
Carrying your microTALK® radio with you is easy when using the belt clip or optional wrist strap. The belt clip easily attaches to your belt, purse, or backpack.
Introduction

Features
- 22 Channels
- Seven shared with FRS/GMRS, seven FRS only, eight GMRS only.
- 10 Channel Weather Radio
- Weather Alert
- 121 Privacy Codes (38 CTCSS codes/83 DCS codes)
- Hands-Free Operation (VOX)
- Vibralert® Silent Paging
- Rewind-Say-Again®
- Tri-Watch
- Scan Channels, privacy codes
- Backlit LCD Display
- LED Flashlight
- Call Alert
- Five selectable tones
- Button Lock
- Speaker/Microphone/Charge Jack
- Roger Beep
- Selectable On/Off
- Battery/Power Saver
- Keystroke Tones
- Battery Level Indicator
- Low Battery
- Audible Alert
- Auto Squelch
- Belt Clip

NOTES

Maximum range may vary and is based on unobstructed line-of-sight communication under ideal conditions.

This device complies with Industry Canada licence-exempt RSS standard.
Operation is subject to the following two conditions:
1) this device may not cause interference and
2) this device must accept any interference, including interference that may cause undesired operation of the device.

«IC» before the equipment certification number signifies that the Industry Canada technical specifications were met. It does not guarantee that the certified product will operate to the user’s satisfaction.

Important FCC Licensing Information

This radio operates on General Mobile Radio Service (GMRS) frequencies which require a Federal Communications Commission (FCC) license in the U.S.A. See page 21 for licensing and other related information.
Caring for Your microTALK® Radio

Your microTALK® radio will give you years of trouble-free service if cared for properly. Handle the radio gently. Keep the radio away from dust. Avoid exposure to extreme temperatures.

Installing Batteries

To install or replace batteries:

1. Remove belt clip by releasing belt clip latch and sliding clip up.
2. Loosen the two top and bottom screws on the back of the radio to remove the battery compartment cover. HINT: the screws should be loose enough (and sticking up) that you could use them to help pull off the battery door if needed.
3. Insert the supplied three AA rechargeable batteries or non-rechargeable alkaline batteries. Position batteries according to polarity markings.
4. Replace battery compartment cover, screw down the screws and re-attach the belt clip.
5. Tighten the screws using the tip of the belt clip to secure the battery door to the radio. Do not overtighten. Only use the tip of the belt clip to tighten the screws.
   - Do not attempt to charge alkaline batteries.
   - Do not mix old and new batteries.
   - Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-Cd, Ni-MH, etc.) batteries.

To charge batteries in radio:

1. Check to see that the batteries are inserted properly.
2. Insert the cable into the charge jack located at the top of the radio.
3. Plug the charging cable into a power source.

- Use only the supplied rechargeable batteries and charger for recharging your Cobra microTALK radio.
- Cobra recommends your radio is turned off while being charged.
- It normally takes about 15 hours to fully charge batteries.
- Non-rechargeable alkaline batteries can also be used in your radio.
- This radio floats with included NiMH battery. It may not float with some AA batteries.

Limited One-Year Warranty on Radio(s)

For Products Purchased in Canada

Your new Cobra GMRS radios are covered by a one-year replacement warranty. If any manufacturing defect becomes apparent in this product within one year from the original date of purchase, it will be replaced. Please return the GMRS radio to your dealer with original or copy of dated proof of purchase. This warranty does not cover damages due to careless handling, negligence, accident, abuse or failure to follow operating instructions. Alteration of this product or defacing of the serial number cancels all obligations of this warranty. This warranty gives you specified legal rights. Additional warranty rights may be provided by law in some areas.

For Products Purchased in the U.S.A.

Cobra Electronics Corporation warrants that its Cobra GMRS radios and the component parts thereof, will be free of defects in workmanship and materials for a period of one year from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser, provided that the product is utilized within the U.S.A.

Cobra will, without charge, repair or replace, at its option, defective GMRS radios, products or component parts upon delivery to the Cobra Factory Service department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt.

You must pay any initial shipping charges required to ship the product for warranty service, but the return charges will be at Cobra’s expense, if the product is repaired or replaced under warranty. This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

Exclusions: This limited warranty does not apply: 1) To any product damaged by accident; 2) In the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs; 3) If the serial number has been altered, defaced, or removed; 4) If the owner of the product resides outside the U.S.A.

Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

For Products Purchased Outside Canada or the U.S.A.

If the owner of the product resides outside the U.S.A., the Cobra Factory Service department will not be liable for any incidental, consequential or other damages; including, without limitation, damages due to careless handling, negligence, accident, abuse or failure to follow operating instructions. Alteration of this product or defacing of the serial number cancels all obligations of this warranty. This warranty gives you specified legal rights. Additional warranty rights may be provided by law in some areas.

For Products Purchased Outside Canada or the U.S.A.

Cobra will, without charge, repair or replace, at its option, defective GMRS radios, products or component parts upon delivery to the Cobra Factory Service department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt.

You must pay any initial shipping charges required to ship the product for warranty service, but the return charges will be at Cobra’s expense, if the product is repaired or replaced under warranty. This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

Exclusions: This limited warranty does not apply: 1) To any product damaged by accident; 2) In the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs; 3) If the serial number has been altered, defaced, or removed; 4) If the owner of the product resides outside the U.S.A.

Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

Using Your Radio

Operation

Battery Low

- When battery power is low, the final bar in the Battery Low icon will blink and an audible tone will sound twice before the radio shuts off. Your batteries should be replaced or recharged, if using rechargeable batteries.

Auto Battery Save

- If there are no transmissions within 10 seconds, the radio will automatically switch to Battery Save mode and the Power Saver icon will flash in the display. This will not affect the radio’s ability to receive incoming transmissions.

Communicating with Another Person

1. Press and hold the Talk button.
2. With the microphone about two inches (5 cm) from your mouth, speak in a normal voice.
3. Release the Talk button when you are finished talking and listen for a response.

You cannot receive incoming calls while pressing the Talk button.

Both radios must be tuned to the same channel/privacy code to communicate.

To Select a Channel

With the radio on, select any of the 22 channels by pressing the Channel Up or Channel Down button.

Both radios must be tuned to the same channel to communicate.

Channels 1 through 7 are shared with FRS/GMRS. Channels 8 through 14 are FRS only. Channels 15 through 22 are GMRS only.

See page 20 for FRS/GMRS frequency allocations and compatibility charts.

Nothing Comes Close to a Cobra®
Lock Function

• The Lock function locks the Channel Up, Channel Down, Volume Up, Volume Down and Mode/Power buttons to prevent accidental operation.

To turn the lock on or off:

– Press and hold the Call/Lock button for two seconds.

A double beep sound is used to confirm your lock on or off request. When in Lock mode, the Lock icon will be displayed.

Listening for a Response

• Release the Talk button to receive incoming transmissions. Your microTALK® radio is always in Standby mode while the Talk or Call buttons are not pressed.

To Adjust Volume

• Press the Volume Up or Volume Down button.

A double beep sound is used to indicate the minimum and maximum volume levels (1 through 8).

Call Button

• Press and release the Call button.

The other person will hear a three second call tone. This tone is used only to establish voice communications.

LED/S.O.S. Flashlight

• Press and release the LED flashlight button below the TALK button to use the LED flashlight located at the bottom of the radio.

To activate S.O.S. function, press and hold the LED flashlight button to turn on. Press and release to turn off the flashlight or S.O.S. function.

Auto Squelch

• Your microTALK® radio will automatically shut off weak transmissions and unwanted noise due to terrain, conditions or if you’ve reached your Maximum Range limit.

microTALK® Range

Your range will vary depending on terrain and conditions.

In flat, open country your radio will operate at maximum range.

Buildings and foliage in the path of the signal can reduce the range of the radio.

Dense foliage and hilly terrain will further reduce the range of the radio.

On FRS Channels 8 through 14, your radio automatically switches to low power, which will limit the range the radio can communicate.
Scrolling Through the Mode Function

By scrolling through the Mode function, you will be able to select or turn on preferred features of your microTALK® radio. When scrolling through the Mode function, your radio features will be displayed in the same predetermined order:

- Set CTCSS Privacy Codes
- Set DCS Privacy Codes
- Set Hi-Mid-Low Power
- Set Vox On/Off
- Set Vox Sensitivity
- Set Call Tones 1-10
- Set VibrAlert On/Off
- Set Roger Beep On/Off
- Set Key Tones On/Off
- Set Rewind-Say-Again On/Off

Privacy Codes

Your microTALK radio incorporates two advanced coded squelch systems that can help to reduce interference from other users on any given channel. CTCSS (Continuous Tone Coded Squelch System) provides 38 privacy codes and DCS (Digitally Coded Squelch) provides 83 privacy codes. This provides a total of 121 Privacy Codes. Either system can be used on all channels, but both systems cannot be used on the same channel at the same time.

To successfully communicate using a privacy code, both the sending and receiving radios must be tuned to the same channel and to the same privacy code system (CTCSS or DCS) and privacy code number. Each channel will remember the last privacy code system and number you select.

The privacy code 00 is not a privacy code, but allows all signals to be heard on a channel that is set to 00 on both the CTCSS and DCS systems.

Set CTCSS Privacy Codes

To select a CTCSS privacy code:

1. After selecting a channel, press the Mode/Power button until the CTCSS icon appears and the small numbers next to the channel number flash on the display.

   If DCS is turned on at the channel selected, the display will flash the CTCSS icon and “OFF.” To switch from DCS to CTCSS, press the Channel Up or Channel Down button while the display is flashing “OFF.” The display will then show the small numbers flashing and you will then be able to proceed to step 2.

2. Press using the Channel Up or Channel Down button to select a privacy code. You can hold the Up or Down button for fast advance.

3. When your desired CTCSS privacy code is displayed, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.
Set DCS Privacy Codes

To select a DCS privacy code:
1. After selecting a channel, press the Mode/Power button until the DCS icon appears and the small numbers flash on the display (00 through 83).
2. Press using the Channel Up or Channel Down button to select a DCS privacy code. You can hold the Up or Down button for fast advance.
3. When DCS privacy code is displayed, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to enter the new setting and return to Standby mode.

Set High/Medium/Low (H-M-L) Power Button

Your radio can transmit selectively at 0.5, 1, or 2 watts of power. Use the low power setting for short-range communications and use the high power setting for long-range communications.

To toggle between H-M-L Power Modes:
1. Press the Mode/Power button until HI MED LO icon appears.
2. Press using the Channel Up or Channel Down button to select between High/Medium/Low power.
3. When the desired power is selected, press the Mode/Power button to proceed to other functions, or press Talk button to return to Standby mode.

Channel 8 through 14 only operates on Low power setting.
Voice Activated Transmit (VOX)

In VOX mode, your microTALK® radio can be used “hands-free,” automatically transmitting when you speak. You can set the VOX sensitivity level to fit the volume of your voice and avoid transmissions triggered by background noise.

To turn VOX mode on or off:
1. Press the Mode/Power button until the VOX icon flashes on the display. The current On or Off setting is displayed.
2. Press the Channel Up or Channel Down button to turn VOX On or Off.
3. When VOX is turned on or off, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.

To set VOX sensitivity:
1. Press the Mode/Power button until the VOX icon flashes and the current sensitivity level is displayed.
2. Press the Channel Up or Channel Down button to change the setting.
3. When VOX sensitivity is selected, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.

Ten Call Tone Settings

You can choose between ten different Call Tone Settings to transmit a call alert.

To change a call tone setting:
1. Press the Mode/Power button until the letter “C” and the current call tone number (01 through 10) is displayed. The current call tone will sound for three seconds.
2. Press the Channel Up or Channel Down button to hear the other call tone settings.
3. Choose one of the following:
   a. Press the Mode/Power button to enter the new setting and proceed to other functions.
   b. Press Talk or Call/Lock button to return to Standby mode.
   c. Do not press any buttons for 12 seconds to return to Standby mode.

VibrAlert® and Call Alert

Your MicroTALK® radio can alert you to incoming signals by sounding an audible call tone or an audible tone with VibrAlert®.

To change call settings:
1. Press the Mode button until the Call Setting icon flashes on the display. The current setting (“01” vibrate + ring, “02” ring only) is displayed.
2. Press the Channel Up or Channel Down button to change the call setting.
3. Choose one of the following:
   a. Press the Mode button to enter the new setting and proceed to other functions.
   b. Press Talk or Call/Lock button to return to Standby mode.
   c. Do not press any buttons for 12 seconds to return to Standby mode.

Nothing Comes Close to a Cobra®
Roger Beep Confirmation Tone

Your listener will hear an audible tone when you release the Talk button. This alerts the other party that you are finished talking and it is OK for them to speak.

To turn Roger beep on or off:
1. Press the Mode/Power button until the Roger Beep icon flashes. The current on or off setting is displayed.
2. Press the Channel Up or Channel Down button to select Roger beep on or off.
3. Choose one of the following:
   a. Press the Mode/Power button to enter the new setting and proceed to other functions.
   b. Press Talk or Call/Lock button to return to Standby mode.
   c. Do not press any buttons for 12 seconds to enter the new setting and return to Standby mode.

Key Tone On/Off

When Key Tone is On, an audible tone will sound each time a button is pressed.

To turn key tone on or off:
1. Current key tone status On/Off will flash.
2. Press the Channel Up or Channel Down button to select key tone on or off.
3. Choose one of the following:
   a. Press the Mode/Power button to enter the Standby mode.
   b. Press Talk or Call/Lock button to return to Standby mode.
   c. Do not press any buttons for 12 seconds to enter the new setting and return to Standby mode.

REWIND-SAY-AGAIN®

Rewind On/Off

If Rewind is enabled, the last 20 seconds of incoming audio is recorded and you can play back calls by pressing the Rewind button.

To set the Rewind mode ON or OFF:
1. Press the Mode/Power button until the Rewind icon appears.
2. Press Channel Up/Down button to select ON or OFF.
3. Press Push-to-talk (PTT) button to save entry.

Use the Cobra exclusive Rewind-Say-Again® feature to replay or record the last 20 seconds of an incoming audio transmission.

Example 1:
When music or conversation creates too much noise to hear an inbound message clearly, press the REWIND button to hear the message a second time.

Example 2:
When listening to an urgent message with confusing background noise, press the REWIND button to hear the message a second time. To erase the recorded audio, hold down the REWIND button while turning on the radio. 2 confirmation beeps will be heard indicating that the recorded audio has been erased.

Hold the Rewind button to lock the recording memory (the Rewind icon flashing) and save the currently recorded transmission.
10 Memory Locations

Your microTALK radio has 10 Memory Locations for storing your most frequently used channels and channel/privacy code combinations. These Memory Locations can be selected individually or can be scanned.

To program a memory location:
1. Press and hold the MEM/ESC button. Memory icon and the Memory Location show on the display.
2. Press the Channel Up or Channel Down button to select the memory location (0 through 9).
3. Press the MEM/ESC button to enter a new memory location or edit an already programmed memory location.
4. Press the Channel Up or Channel Down button to select the memory location.
5. Press the MEM/ESC button. The channel numbers will flash on the display.
6. Press the Channel Up or Channel Down button to select a channel (1 through 22).
7. Press the MEM/ESC button. The CTCSS icon and privacy code numbers will flash on the display.
8. Choose one of the following:
   a. Press the Channel Up or Channel Down button to select a CTCSS privacy code (00 through 38) for the channel.
   b. Press the MEM/ESC button to switch from CTCSS to DCS. The DCS icon and privacy code numbers will flash on the display. The Channel Up or Channel Down button can then be used to select a DCS privacy code (00 through 83) for the channel.

9. Choose one of the following:
   a. Press the MEM/ESC button to enter the channel/privacy code in the selected memory location. Radio then proceeds to next memory location, which will blink.
   b. Press and hold the MEM/ESC button to save the current state of the Set Memory Function and press the MEM/ESC button again to return to Standby mode.

To recall a stored memory channel location:
1. Press the MEM/ESC button until the Memory icon and the memory location number flash on the display.
2. Press the Channel Up or Channel Down button to select a memory location (0 through 9).
3. Press and hold the MEM/ESC button to return to Standby mode on the selected memory location.

A memory location can be reprogrammed at any time it is displayed. Press the MEM/ESC button to begin.

If “OF” flashes in place of the privacy code numbers, a privacy code is already set in the opposite (CTCSS or DCS) system. Press the Channel Up or Channel Down button to cancel the opposite code and select a privacy code from the active system for the selected channel.
Tri-Watch Set-up
Your microTALK® radio can be set up to scan three of your favorite channels for activity.

To Program or Edit the Tri-Watch Channels:
1. Press and hold the TRI-WATCH button from GMRS Standby mode for two (2) seconds to activate Tri-Watch Setup mode. The TW icon on the display will turn ON.
2. Press Channel Up or Channel Down button to select the desired Tri-Watch channel.
3. Press and release TRI-WATCH button to confirm entry.
4. Repeat steps 2 and 3 to program the remaining additional Tri-Watch memory channel.
5. After programming both Tri-Watch memory channels the radio will immediately engage Tri-Watch mode.

Using Tri-Watch:
1. From GMRS Standby mode, press the TRI-WATCH button. The TW will appear in the display along with the three channels stored in the Tri-Watch memory.
2. The radio will scan through the three (3) Tri-Watch memory channels.
3. A signal on any one (1) of the three (3) channels will stop the scan for 6 seconds to allow you to listen to the traffic on that location.
4. Press Channel Up or Channel Down button to resume scanning the Tri-Watch channels or to change the scan direction.
5. To EXIT the Tri-Watch scan, press the TRI-WATCH button again, and the radio will return to GMRS Standby mode.

BURP
BURP features allows the user to expel water from inside the speaker grille. This is useful if the radio is dropped in the water which may become trapped in the speaker grille and muffle the audio.

To activate BURP:
1. Press and release the MEM/ESC and Rewind buttons at the same time.
2. The Burp tone(s) at maximum level will sound from the internal speaker for 8 seconds. During this time, BURP will appear in the display.
3. Hold the radio with the speaker grille down to help the water drain out.
4. After an 8-second interval, the radio will return to standby.

Channel Scan
Your microTALK® radio can automatically scan channels.

To scan channels:
1. Press and release the Scan button until the Scan icon and the channel numbers appear on the display.
2. Press and hold the Scan button to begin scanning channels.
3. The radio ignores specific privacy codes while scanning channels.
4. During scanning (while receiving an incoming transmission), you can choose from the following:
   a. Press and hold the Talk button to communicate on that channel. Your radio will remain on that channel and return to Standby mode.
   b. Press the Channel Up or Channel Down button to resume scanning channels.
   c. Press and hold the Scan button to return to Standby.
Mode Functions

Privacy Code Scan
Your microTALK radio can automatically scan the Privacy Codes (either CTCSS 01 through 38 or DCS 01 through 83) within one channel. Only one set of privacy codes (CTCSS or DCS) can be scanned at a time.

To scan privacy codes:
1. While in Standby mode, press and release the Scan button twice (CTCSS) or three times (DCS) until the CTCSS or DCS icon and numbers are flashing.
2. Press and hold the Scan button to begin scanning privacy codes within the selected channel.

The Scan icon will continue to be displayed when privacy code scan is on. Your radio will continue to scan privacy codes and stop as an incoming transmission is detected. Your radio will remain on that channel/privacy code for 6 seconds.

NOAA* All Hazards Radio Channels
You can use your microTALK radio to listen to NOAA All Hazards Weather Radio channels transmitting in your area.

To listen to All Hazards Radio channels:
1. Press the Weather button until the All Hazards Radio icon and the currently selected All Hazards Radio channel are displayed.
2. Use the Channel Up or Channel Down button to change All Hazards Radio channels.
3. The All Hazards Radio icon will continue to be displayed when All Hazards Radio is on.
4. To exit All Hazards Radio, press and hold the Weather button until On or Off is displayed.

*National Oceanographic and Atmospheric Administration

Weather (WX) Alert Mode
Turning On the Weather Alert function will allow your radio to automatically receive NOAA weather signals and warnings from designated weather broadcast stations. If the radio is turned ON, it will alert to Weather and other emergency alerts broadcast by NOAA.

To turn Weather Alert On or Off:
1. Press the Weather button to enter the All Hazards (Weather) radio mode.
2. Press the Weather button again and the Weather Alert icon flashes on the display. The current On or Off setting is displayed.
3. Press the Channel Up and Channel Down button to turn Weather Alert On or Off.
4. Press the Weather button again to save the new setting.

Nothing Comes Close to a Cobra®
### General Specifications

**FRS/GMRS Frequency Allocation and Compatibility**

Important: Please note that Cobra GMRS models with 15 Channels may designate different channel numbers for the same frequency. For example, a Cobra 15 Channel GMRS model would need to be tuned to Channel 11 in order to communicate with a 22 Channel GMRS tuned to Channel 15. Please refer to the chart below for channel/ frequency number compatibility.

For any questions about operating or installing this new Cobra product, or if parts are missing…
PLEASE CALL COBRA FIRST…do not return this product to the store. See customer assistance on page A1.

For Products Purchased in the U.S.A.
If your product should require factory service, please call Cobra first before sending your radio. This will ensure the fastest turn-around time on your repair. You may be asked to send your radio to the Cobra factory. It will be necessary to furnish the following to have the product serviced and returned.

1) For warranty repair include some form or proof-of-purchase, such as a mechanical reproduction or carbon of a sales receipt. If you send the original receipt, it cannot be returned.
2) Send the entire product.
3) Enclose a description of what is happening with the radio. Include a typed or clearly printed name and address of where the product is to be returned.
4) Pack radio securely to prevent damage in transit. If possible, use the original packing material.
5) Ship prepaid and insured by way of a traceable carrier such as United Parcel Service (UPS) or Priority Mail to avoid loss in transit to Cobra Factory Service, Cobra Electronics Corporation, 6500 West Cortland Street, Chicago, Illinois 60707 U.S.A.
6) If the radio is in warranty, upon receipt of your radio, it will either be repaired or exchanged depending on the model. Please allow approximately three to four weeks before contacting Cobra for status. If the radio is out of warranty, a letter will automatically be sent informing you of the repair charge or replacement charge. If you have any questions, please call 773-889-3087 for assistance.

For Products Purchased Outside Canada or the U.S.A.
Please contact your local dealer for product service information.

For Products Purchased Outside the U.S.A.

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER’S AUTHORITY TO OPERATE THE EQUIPMENT.

This device complies with Industry Canada license-exempt RSS standards (IC RSS-GEN, Sec 7.1.3 Warning Statement).

FCC Part 15.21 Warning Statement—
NOTE: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user’s authority to operate the equipment.

For Products Purchased in the U.S.A.
If your product should require factory service, please call Cobra first before sending your radio. This will ensure the fastest turn-around time on your repair. You may be asked to send your radio to the Cobra factory. It will be necessary to furnish the following to have the product serviced and returned.

1) For warranty repair include some form or proof-of-purchase, such as a mechanical reproduction or carbon of a sales receipt. If you send the original receipt, it cannot be returned.
2) Send the entire product.
3) Enclose a description of what is happening with the radio. Include a typed or clearly printed name and address of where the product is to be returned.
4) Pack radio securely to prevent damage in transit. If possible, use the original packing material.
5) Ship prepaid and insured by way of a traceable carrier such as United Parcel Service (UPS) or Priority Mail to avoid loss in transit to Cobra Factory Service, Cobra Electronics Corporation, 6500 West Cortland Street, Chicago, Illinois 60707 U.S.A.
6) If the radio is in warranty, upon receipt of your radio, it will either be repaired or exchanged depending on the model. Please allow approximately three to four weeks before contacting Cobra for status. If the radio is out of warranty, a letter will automatically be sent informing you of the repair charge or replacement charge. If you have any questions, please call 773-889-3087 for assistance.
